Summary of discussions and its (expected) results:

Activities of UEC in FY2013 were reported. Role-sharing of the next UEC was determined.

The person in charge of BigRIPS analysis workshop was determined. The most probable date is after the beam time in the beginning of September/2014. It is better to couple with the SAMURAI/MINOS collaboration meetings.

RIBF discussion plus! which will discuss about the physics of Island of Inversion will be held in 25/Apr. The tentative program was discussed. The announcement will be distributed soon.
