

NIC-XIV School 2016

Wednesday 15 June 2016

Students1 - Library Hall, Central Library (14:00 - 15:00)

time	[id] title	presenter
14:00	[4] Relevant cross section measurements to the astrophysical p-process nuclei	Dr OPREA, Andreea
14:10	[12] How to make a supernova associated with a Gamma-Ray Burst in the collapsar model ?	Mr HAYAKAWA, Tomoyasu
14:20	[16] Pairing dynamics in Richardson model	Mr NI, Fang
14:30	[17] β -decay studies of r-process nuclei using the Advanced Implantation Detector Array (AIDA)	Mr GRIFFIN, Chris
14:40	[22] Evolution of the magnetar-powered supernovae	Ms MASUYAMA, Miyu
14:50	[25] Searching for the origin of galactic Al-26 with an experiment using isomeric Al-26 beam	Mr SHIMIZU, Hideki
