

Progress in and beyond Theoretical Nuclear Physics Laboratory

Monday, 28 March 2016

Session p1 - RIBF Conference Room (201) (14:00 - 15:20)

-Conveners: Haozhao Liang

time	[id] title	presenter
14:00	[9] Recent development of CDCC	MATSUMOTO, Takuma
14:20	[10] Studies of clustering and deformation by using the antisymmetrized molecular dynamics and its limitations	TANIGUCHI, Yasutaka
14:40	[11] Nuclear dynamics with time-dependent energy density functional	WASHIYAMA, Kouhei
15:00	[12] Skyrme-QRPA calculation for triaxial nuclei and the extension to rotating states	YAMAGAMI, Masayuki
