

7 years of MAXI : monitoring X-ray transients

Tuesday, 6 December 2016

Session 9 : AGN (15:10 - 16:30)

time	[id] title	presenter
15:10	[28] Hard X-ray luminosity function of tidal disruption events: first results from MAXI extragalactic survey	Mr KAWAMURO, Taiki
15:25	[29] First statistical tests for clumpy-torus models: constraints from RXTE monitoring of Seyfert AGN	Dr MARKOWITZ, Alex
15:55	[30] A Novel view of AGN accretion flows revealed by X-ray and optical monitoring	Prof. MAKISHIMA, Kazuo
16:15	[31] An X-ray spectral variability of fast disk winds in AGN	Dr HAGINO, Kouichi
