

理研 数理創造プログラム (iTHEMS)

The image features a map of Japan with a light green background and a blue grid. Three red stars are placed on the map to indicate the locations of iTHEMS satellite centers: one in the Kanto region (Kashiwa), one in the Kansai region (Kyoto), and one in the Kinki region (Kobe). Red lines connect these stars to three inset photographs. The top-left photo shows a modern building with a distinctive facade. The top-right photo shows a classroom with a chalkboard filled with mathematical equations. The bottom-right photo shows a multi-story brick building. The bottom-left photo shows a lecture hall with students seated at desks.
