

International symposium on RI beam physics in the 21st century: 10th anniversary of RIBF

Contribution ID: 8

Type: **not specified**

Beta-decay half-lives of neutron-rich nuclei with $Z = 53 - 67$: relevant to the formation of r-process rare-earth peak

Monday, December 4, 2017 2:00 PM (30 minutes)

Presenter: WU, Jin (RIKEN Nishina Center)

Session Classification: Thesis Award (UEC session)
