

International symposium on RI beam physics in the 21st century: 10th anniversary of RIBF

Tuesday, December 5, 2017

Superheavy - RIBF Building 2F, Large Conf. Room (3:40 PM - 5:50 PM)

time	[id] title	presenter
3:40 PM	[25] Capture barrier distributions and superheavy elements	HAGINO, Kouichi
4:10 PM	[26] Discovery of Nihonium at RIKEN Nishina Center	MORIMOTO, Kouji
4:40 PM	[27] Precision mass measurements of short-lived heavy nuclei, present and future toward comprehensive measurement	WADA, Michiharu
5:10 PM	[28] Superheavy Element Nuclear Chemistry at RIBF	HABA, Hiromitsu
5:40 PM	[29] Closing
