

French Japanese Symposium on Nuclear Structure Problems

Thursday 6 January 2011

Studies with Novel Equipment 1 (14:05 - 15:40)

time	[id] title	presenter
14:05	[36] MINOS: a proton target - vertex tracker device for the gamma spectroscopy of very exotic nuclei	OBERTELLI, Alexandre
14:35	[58] Elastic scattering of protons with RI beams	ZENIHIRO, Juzo
15:00	[51] Active target ACTAR for the low energy short lived radioactive beams	NALPAS, Laurant
15:25	[22] Studies of spin-dependent interactions in unstable nuclei with solid polarized proton target	SAKAGUCHI, Satoshi
