

French Japanese Symposium on Nuclear Structure Problems

Friday 7 January 2011

Nuclear Structure 3 (09:00 - 10:30)

time	[id] title	presenter
09:00	[74] Presentation of the ALTO facility - Production of RIB by photofission -	IBRAHIM, Fadi
09:30	[10] Systematic study of E1 mode using Canonical-basis TDHFB	EBATA, Shuichiro
09:45	[13] Unified studies of even Be isotopes from bounds to continuums	ITO, Makoto
10:00	[23] Triaxial Nuclear Molecule ^{28}Si – ^{28}Si in Resonances	UEGAKI, Eiji
10:15	[12] Black-sphere approximation to nuclei and its application to reactions with neutron-rich nuclei	KOHAMA, Akihisa
