

# French Japanese Symposium on Nuclear Structure Problems

## Saturday 8 January 2011

### Nuclear Structure 4 (09:00 - 10:30)

time	[id] title	presenter
09:00	[46] Beyond-mean-field models for correlated nucleons. Applications of second random-phase approximation to $^{16}\text{O}$ and $^{40,48}\text{Ca}$ .	GRASSO, Marcella
09:30	[66] Derivation of the Interacting Boson Model from mean-field theory	NOMURA, Kosuke
10:00	[21] Large-amplitude quadrupole collective dynamics in neutron-rich Mg and Cr isotopes	HINOHARA, Nobuo
10:15	[17] Microscopic description of large-amplitude collective motions with local QRPA inertial masses	SATO, Koichi
