

14th Workshop of International Astronomical Consortium for High Energy Calibration

Monday 20 May 2019

Working Groups I: 1: Detectors and Background part 1 (Detectors) - Room 1&2 (16:30 - 18:30)

-Conveners: Catherine Grant

time	[id] title	presenter
16:30	[82] ACIS Gain Challenges, Warm Focal Plane Temperatures, and Lorentzians	DURHAM, Nick
16:50	[83] Low energy response calibration and long term gain monitoring of the NuSTAR detectors	MIYASAKA, Hiromasa
17:10	[84] Update on the status of the Chandra ACIS response	GAETZ, Terry
17:30	[85] A solution to the Si-K edge problem in the Suzaku XIS Response and Its Implication to XRISM Xtend	HAYASHIDA, Kiyoshi
17:50	[86] EPIC-pn long term CTI	VALTCHANOV, Ivan
18:10	[15] New clocking mode for X-ray CCD detector	MURAKAMI, Hiroshi

Working Groups I: 2: Coordinated observations - Room special (16:30 - 18:10)

-Conveners: Herman Marshall

time	[id] title	presenter
16:30	[87] XMM-Newton / Chandra cross calibration with blazars	SMITH, Michael
16:50	[88] Swift-NuSTAR cross-calibration update	MADSEN, Kristin
17:10	[89] XMM-Newton and NuSTAR cross-calibration studies	FUERST, Felix
17:30	[90] Swift Operations and Calibration	KENNEA, Jamie
