

# 14th Workshop of International Astronomical Consortium for High Energy Calibration

## Wednesday 22 May 2019

### Working Groups V: 1: Non-thermal SNR - Room special (10:20 - 11:20)

-Conveners: Kristin Madsen

time	[id] title	presenter
10:20	[47] Observations of the Crab Nebula with INTEGRAL SPI	JOURDAIN, Elisabeth
10:50	[48] Update on NuSTAR Crab observations and calibrations	MADSEN, Kristin

### Working Groups V: 2: Detectors and Background part 2 (Background) - Room 1&2 (10:20 - 12:00)

-Conveners: Catherine Grant

time	[id] title	presenter
10:20	[62] Simulations of thermal excursions on the the Athena X-IFU detector wafer from cosmic rays	STEVER, Samantha
10:40	[63] In-orbit Neutron and Radioactivation Background of the Hard X-ray Imager onboard Hitomi	SUZUKI, Hiromasa
11:00	[64] Background Simulations of the Wide-field X-ray Telescope on Einstein Probe	ZHAO, Donghua
11:20	[65] Characterizing and Reducing the Background on the Athena WFI	MILLER, Eric
11:40	[66] Status of modeling Chandra ACIS background	GAETZ, Terry
