1. Your presentation files

- A common laptop PC for the speakers is set at the speech table.
- We'd like to collect all the files into the laptop PC.
- The files are uploaded onto the RIKEN indico pages later. (The upload speed is too slow from this hotel, but the download speed is not the case fortunately.)
- Before your session starts, please put your file in the PC or make sure your file exists there.
- The filename of your slides should be Aug(date)-(name).pdf like "Aug27-shibata.pdf" .
- The pptx files are available as well as pdf files.
- If you want to connect your PC to the projector cable, the default connector is [HDMI](#).
- If you have to use the VGA connector, please consult the person in charge. We need a special operation for the case.
