

The 11th Circum-Pan-Pacific Symposium on High Energy Spin Physics

Tuesday 27 August 2019

Tuesday Afternoon: Tuesday Afternoon I (14:15 - 16:00)

time	[id] title	presenter
14:15	[20] Proton spin from quark and gluon	YANG, Yi-Bo
14:50	[22] "Non-pole" approach to the Sivers effect in the collinear twist-3 formalism	YOSHIDA, Shinsuke
15:25	[23] Revealing the nucleon's spin structure using inclusive electron scattering at Jefferson Lab	JONES, Mark

Tuesday Afternoon: Tuesday Afternoon II (16:20 - 18:40)

time	[id] title	presenter
16:20	[24] Proton structure measurements at LHC	NAGANO, Kunihiro
16:55	[25] Spin-related effect in hadron production at BESIII	LYU, Xiao-Rui
17:30	[48] Discussion session	SHIBATA, Toshi-Aki
18:00	[21] Strange quark suppression from a simultaneous MC analysis of parton distribution and fragmentation functions (file only)	SATO, Nobuo
