

The 11th Circum-Pan-Pacific Symposium on High Energy Spin Physics

Thursday 29 August 2019

Thursday Morning: Thursday Morning I (08:30 - 10:15)

time	[id] title	presenter
08:30	[32] Pion-induced Drell-Yan experiments with transversely polarized proton target in COMPASS at CERN	NUKAZUKA, Genki
09:05	[33] Measurement of polarized Drell-Yan process at FNAL E1039/SpinQuest	NAKANO, Kenichi
09:40	[34] Hadron physics and exclusive Drell-Yan process at J-PARC	SAWADA, Shinya

Thursday Morning: Thursday Morning II (10:35 - 12:25)

time	[id] title	presenter
10:35	[35] Proton radius	SUDA, Toshimi
11:10	[36] Measurement of the neutron electric-to-magnetic form factor ratio at high momentum transfer	KOHL, Michael
11:45	[57] Flavor asymmetry of quarks and antiquarks in the nucleon sea	SHIBATA, Toshi-Aki
12:20	[58] Polarized parton distribution functions from lattice QCD (slides only)	ZHANG, Jianhui
