

# The 24th International Spin Symposium

## Monday 18 October 2021

### **Form Factors and GPDs: Chair: Wen-Chen Chang - Room 501 (18:50 - 20:20)**

-Conveners: Marie Boer; Wen-Chen Chang; Itaru Nakagawa

time	[id] title	presenter
18:50	[11] Deeply Virtual Compton Scattering at COMPASS	GIARRA, Johannes
19:20	[12] Exclusive $\pi^0$ muoproduction at COMPASS	PESKOVA, Marketa
19:40	[14] Measurements of the exclusive neutral pion electroproduction at Jefferson Lab Hall A experiment E12-06-114	LIN, PO-JU
20:00	[15] The deconvolution problem of deeply virtual Compton scattering	DUTRIEUX, Hervé

### **Form Factors and GPDs: Chair: Wen-Chen Chang, Itaru Nakagawa - Room 501 (20:30 - 22:00)**

-Conveners: Wen-Chen Chang; Itaru Nakagawa; Marie Boer

time	[id] title	presenter
20:30	[146] Time-like gravitational formfactors and shear viscosity	TERYAEV, Oleg
21:00	[159] Three-loop corrections to the quark and gluon decomposition of the QCD trace anomaly and their applications	TANAKA, Kazuhiro
21:20	[96] Accessing pion's large-x gluon by fixed-target charmonium production	Prof. CHANG, Wen-Chen
21:40	[9] Spin Density Matrix Elements in Exclusive Muoproduction of $\rho^0$ and $\omega$ Mesons at COMPASS	AUGSTEN, Kamil
