Title	Three Nucleon Force – seeking common ground between few nucleon scattering and nuclear structure	
HP address	http://	
Date	2010.11.29	
Summary of discussion and its advances (expected in the future)	<p>We discussed roles of three nucleon forces in nuclei and sought common ground between study of few nucleon scattering systems and nuclear structure.</p> <p>S. Coon, Tucson, gave a talk on historical background of study of three nucleon forces. H. Witala and K. Sekiguchi had talks from views of few nucleon systems, and K. Tsukiyama had a talk from those of nuclear structure.</p>	
About applicant: Name, Affiliation	<p>Kimiko Sekiguchi (Dpt. of Physics, School of Science, Tohoku University)</p> <p>Hideyuki Sakai (RIKEN Nishina Center)</p>	
About Participants Name, Affiliation (Department)	<p>Henryk Witala (Jagellonian University, Poland)</p> <p>Sydney Coon (Tucson University, JUSTIPEN fellow)</p> <p>Yoshiyuki Suzuki (Niigata University)</p> <p>Koshiro Tsukiyama (U. Tokyo)</p> <p>Kimiko Sekiguchi (Dpt. of Physics, School of Science, Tohoku University)</p> <p>Hideyuki Sakai (RIKEN Nishina Center)</p>	
Supported expenses	(in total) 104,740 JPY	(breakdown) travel expenses (3 people) : 91,300 JPY accommodation fee (2 people): 13,440 JPY
