

Physics of RI: Recent progress and perspectives

Tuesday, 31 May 2022

Tuesday PM1 - RIBF201 (Conference Room) (13:30 - 16:00)

-Conveners: Yoshihiro Aritomo

time	[id] title	presenter
13:30	[15] Recent findings about shell evolution in the neutron-rich Ca region	UTSUNO, Yutaka
14:00	[34] Nuclear clusters probed with knockout reactions (online)	Dr YANG, Zaihong
14:30	[26] Direct mass measurements around neutron-rich Ca region at SHARAQ	MICHIMASA, Shin'ichiro
15:00	[24] Past achievements and future perspectives for in-beam gamma-ray spectroscopy at the isospin frontier at the RIBF (online)	DOORNENBAL, Pieter
15:30	[12] Emerging challenges and scopes in nuclear structure	OTSUKA, Takaharu
