

3rd RIKEN-IBS Joint Conference on Nuclear Physics

Thursday 25 January 2024

Session 2: Toward the limit of nuclear stability - RIBF Large Conference Room (10:35 - 11:35)

-Conveners: Taeksu Shin

time	[id] title	presenter
10:35	[7] Studies for the two-step method using the BigRIPS separator for the RI beam production	AHN, DeukSoon
11:05	[8] Collaborations for future studies using the RI-beam In-flight separators at RIBF and RAON	SUZUKI, Hiroshi

Session 2: Toward the limit of nuclear stability - RIBF Large Conference Room (13:05 - 14:05)

-Conveners: Taeksu Shin

time	[id] title	presenter
13:05	[9] Beam Commissioning Status of the ISOL Facility at IRIS	LEE, Jinho
13:35	[10] Production of neutron-rich nuclei by multinucleon transfer reactions and nuclear spectroscopy at KISS	WATANABE, Yutaka
