

3rd RIKEN-IBS Joint Conference on Nuclear Physics

Friday 26 January 2024

Nuclear structure far from the stability line - RIBF Large Conference Room (13:50 - 15:50)

-Conveners: hideki ueno

time	[id] title	presenter
13:50	[20] Laser spectroscopy for the study of exotic nuclei at RAON	PARK, Sung Jong
14:20	[21] Atomic precision spectroscopy for the RI beams at RIKEN RIBF	TAKAMINE, Aiko
14:50	[19] Current status of preparation for gamma-ray spectroscopy in Korea	Dr MOON, Byul
15:20	[22] Towards next-generation in-beam gamma-ray spectroscopy at the RIBF with HYPATIA	DOORNENBAL, Pieter

Nuclear structure far from the stability line - RIBF Large Conference Room (16:10 - 17:20)

-Conveners: DeukSoon AHN

time	[id] title	presenter
16:10	[23] Knockout reaction studies involving CENS members at RIKEN	Dr KIM, Sunji
16:40	[24] Probing nuclear clustering using knockout reactions	Dr KUBOTA, Yuki
17:10	[25] Closing address
