

Session Program

9-10 Feb 2026

ARIS2026 (-1)

2nd session

Palthe lizaka, main conference hall, meeting rooms

Monday 9 February

13:45

2nd session

Session | **Location:** Palthe Iizaka, main conference hall, meeting rooms

13:45–14:10 **Arch behaviour of charge radii with Fayans pairing**

Speaker

Dr Tomoya Naito

14:10–14:35 **Ni-86: Possible doubly-magic nucleus with neutron halo**

Speaker

Hitoshi Nakada

14:35–15:00

Measurement of $B(M1)$ values for I-forbidden transitions and evaluation of mesonic effects in neutron-rich chlorine isotopes

Speaker

yasutaka yamamoto

15:00–15:20

Study on the compound nucleus neutron-capture reaction of ^{130}Sn using (d,p) surrogate reaction for understanding the r-process

Speaker

Dr Sunghan Bae

15:20–15:40 **TBA**

Speaker

Park Chaeyeon

15:45
