

Workshop on Origin of Hadron Mass - Experimental Opportunities and Theoretical Challenges

Sunday, 27 September 2026 - Wednesday, 30 September 2026

Hiroshima University

Scientific Programme

Opening - Introductory Overview

Deep Inelastic Scattering and Electron-Ion Collisions

Gravitational Form Factors and Mechanical Structure Measurements

Hadron Spectroscopy

Heavy-Ion Collisions

Meson Structure Measurements

Non-Trivial Structure of QCD Vacuum and Nuclear Medium Effects

Quarkonium Production Near Threshold

Ultra Peripheral Collisions
