

[RIBF-ULIC-miniWS-015] Alpha cluster structure on unstable nuclei revealed by newly constructed SAMURAI spectrometer

Thursday 19 April 2012

Session 3 - Room 203 (15:15 - 16:45)

time	[id] title	presenter
15:15	[7] (TBA) (α , α') reaction on stable nuclei and application to unstable nuclei	KAWABATA, Takahiro
15:45	[8] (TBA) Experimental approach to measure alpha condensation and possibility on SAMURAI	ITO, Masatoshi
16:15	[9] Ne isotope highly excited state, positive-negative parity states	KIMURA, Masaaki
